

# Helicopter Tour

## Angkor From Above

To fully understand how large and magnificent the Angkor archeological park is you need to see it from above. If you don't mind spending the extra dollars a scenic helicopter is the best alternative. Siem Reap has two different companies who offers flights around the main temple area or to more remote destinations.

### Practical Information

The tours must be booked in advance and have a minimum 2 people requirement.

The flights can be delayed due to bad weather.

A normal scenic tour around the site takes approx 12 minutes

### How to get there

Both companies have offices located in central Siem Reap.
