

# Sangkheum Center For Children

*Learn more about the situation of children in Cambodia*

## **Practical Information**

Please consider that Sangkheum Center for Children is a project for children.

Visitors are welcome and staff are more than happy to show you the centre. Always follow the staff designated to guide you around the center and ask for permission before taking any pictures of the children.

Donations are appreciated and even small contributions will go a long way in providing a brighter future for the children of Cambodia.

The center located 12 km from Siem Reap has since 2001 given hope to orphaned, abused or neglected children.

They work with more than 350 underprivileged children and youth on a daily basis.

53 of these children live under full time care in the centre.

58 children receive social and scholastic support within their home environment.

250 more children are involved in their socio-educational program receiving educational, social and medical support.

They provide education, training and support through Social and medical support, Public school support, Remedial Khmer lessons, English language lessons, Recreational activities, Handicraft, Traditional Khmer dancing and music, Sport, Life skills training and Vocational training.
